# Utiliser le Miracast avec le Samsung Flip

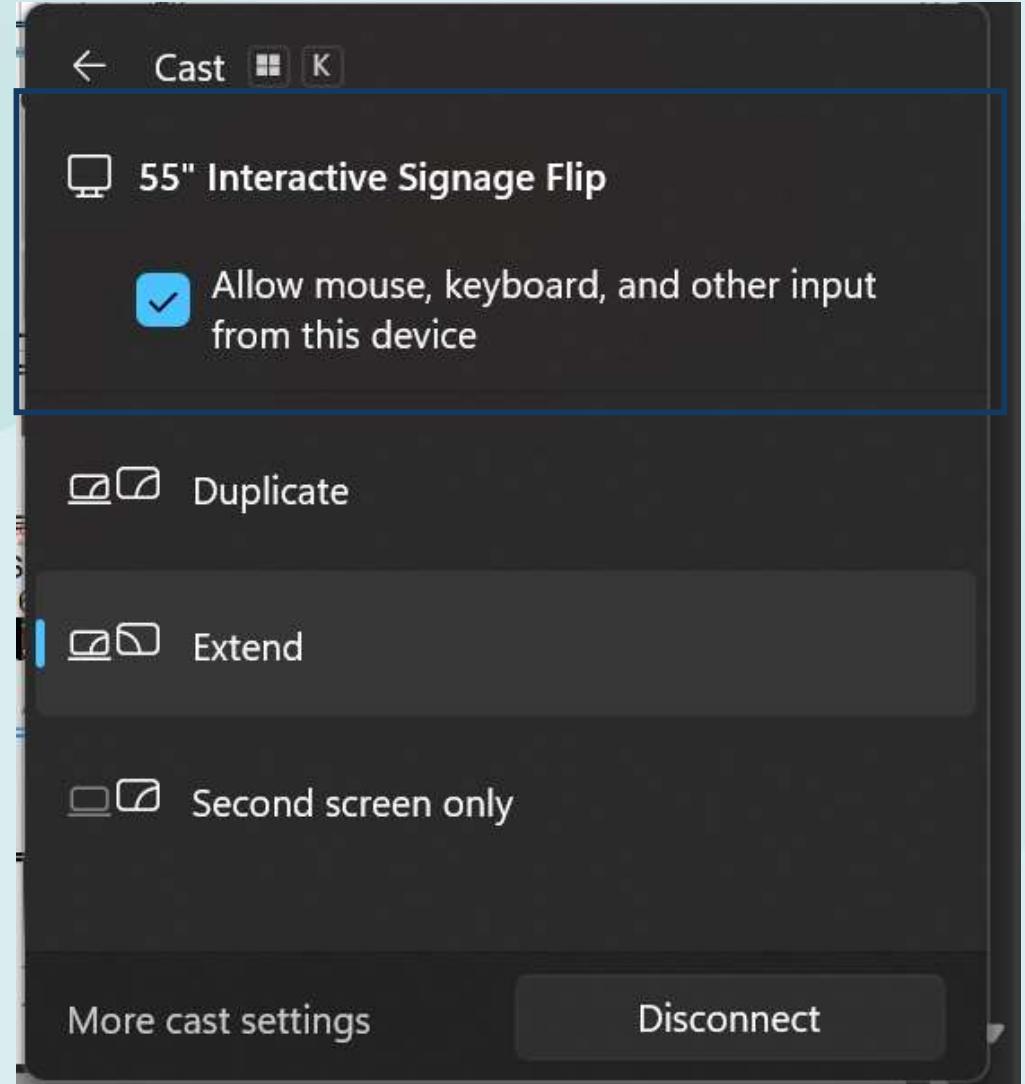

- 1 Pour se connecter au Samsung Flip, utilisez le Miracast (partage sans fil)

Appuyez simultanément sur les deux touches depuis votre clavier

Activez la fonction « Allow input from a keyboard or mouse connected to this display » pour avoir la fonctionnalité tactile sur le Samsung Flip.

- 2 Vous avez ainsi un double affichage, le PC et le Samsung Flip

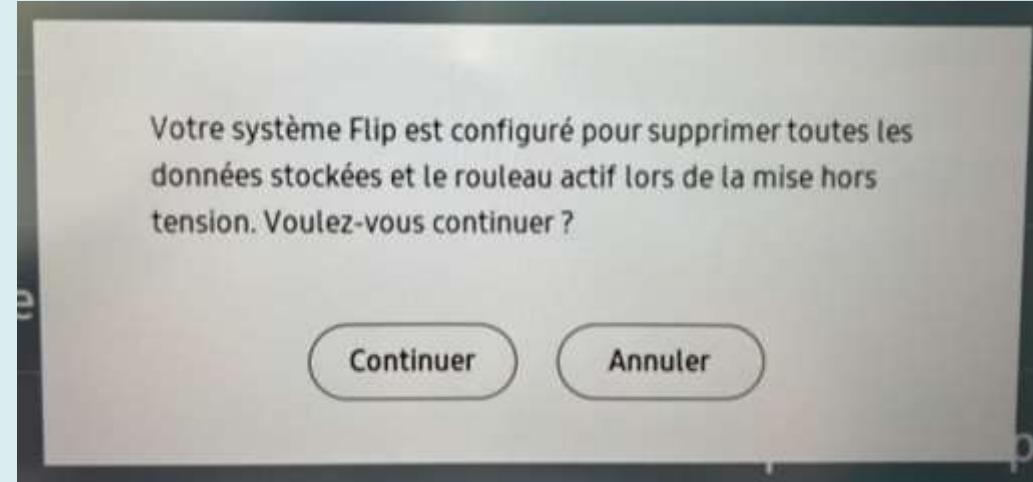

# Pensez à éteindre le Flip à la fin de chaque réunion

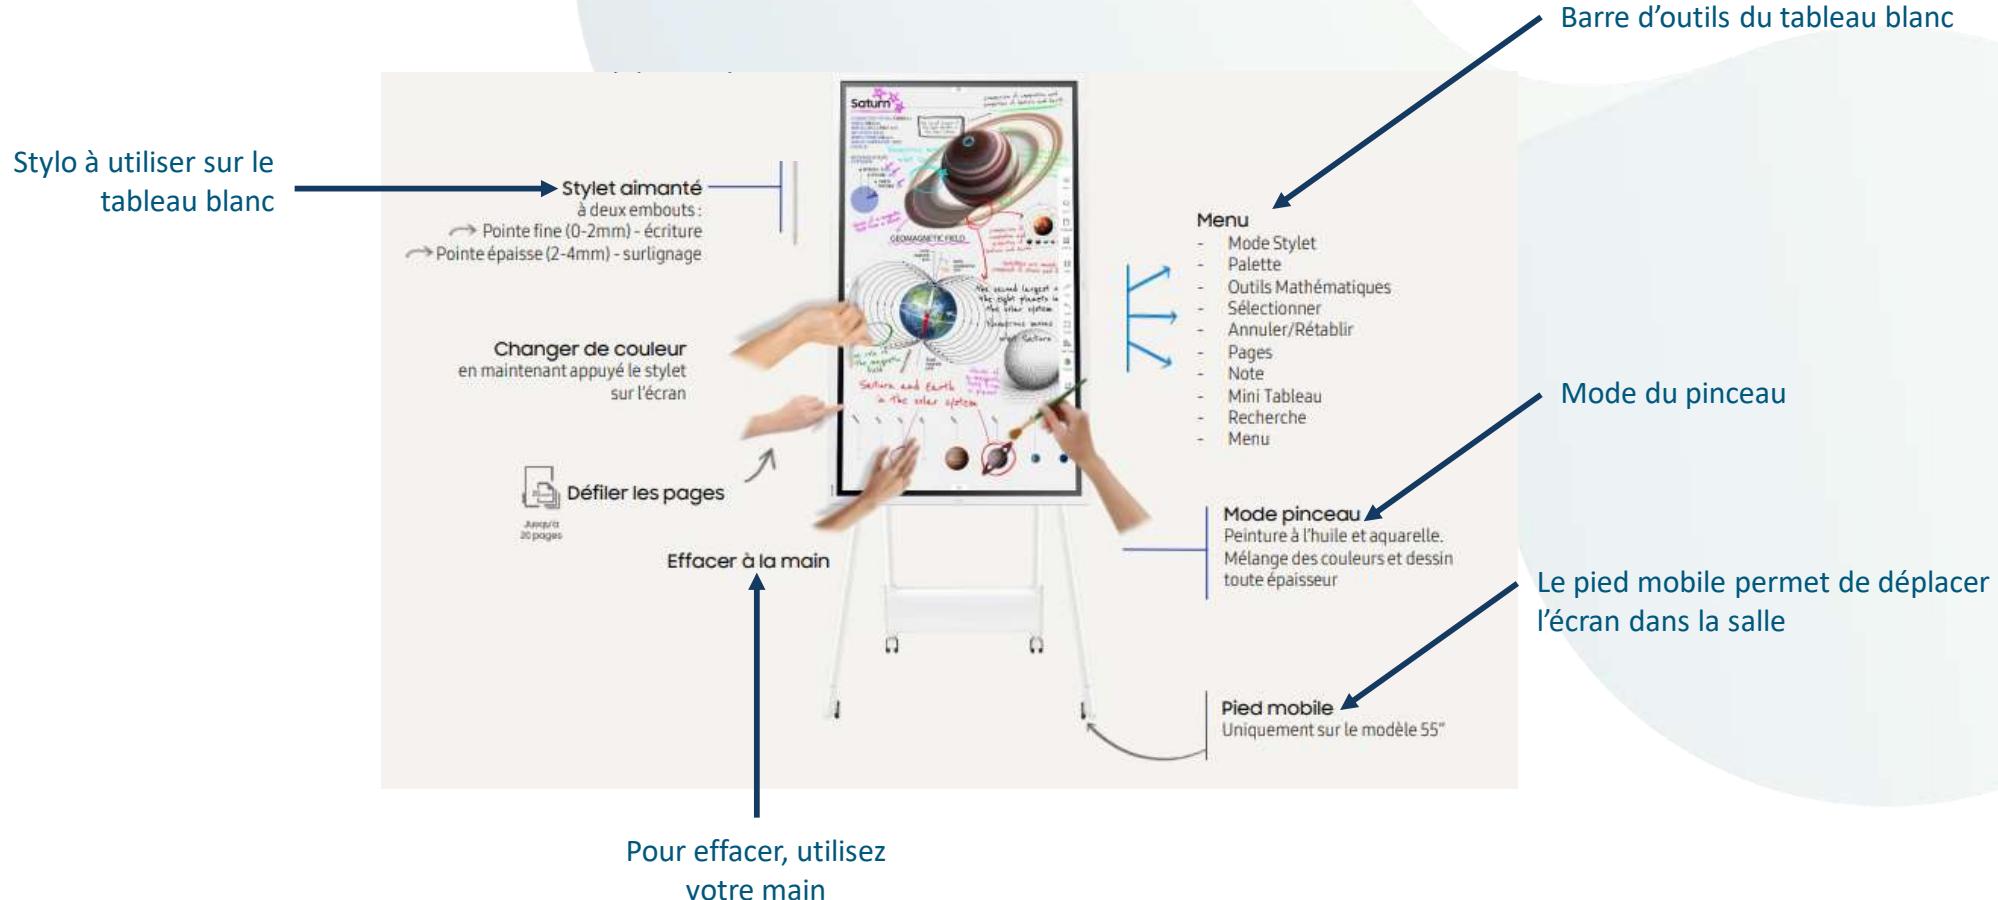

**Pour éviter tout conflit de confidentialité, à l'extinction de l'écran, l'ensemble du travail réalisé s'efface. Pensez bien à vous envoyer par mail le travail effectué pour éviter toutes pertes significatives avant d'éteindre via le bouton d'alimentation présent sous l'écran à droite.**

**Un message de confirmation vous sera indiqué à l'extinction.**

# Fonctionnalités du Samsung Flip

# Envoyer un mail via le Samsung Flip

- 1 Vous pouvez envoyer votre travail via email en allant dans l'icône au milieu gauche de l'écran.
- 2 Cliquez sur l'onglet « Export » illustré par l'icône
- 3 Une page mail s'ouvre
- 4 Insérez manuellement l'adresse mail pour recevoir

Astuce, envoyez à votre mail professionnel individuel et transférez via Outlook aux autres participants de votre réunion

# Quelques cas d'usage

**Vous pouvez projeter votre PC sur le Samsung Flip tout en annotant des plans via l'outil adobe Acrobat Reader**

**Vous pouvez projeter votre écran de PC et utiliser le tableau blanc en même temps**

**Vous pouvez naviguer à travers les pages du tableau blanc en cliquant sur l'icône « page » dans la barre d'outils du Samsung Flip**

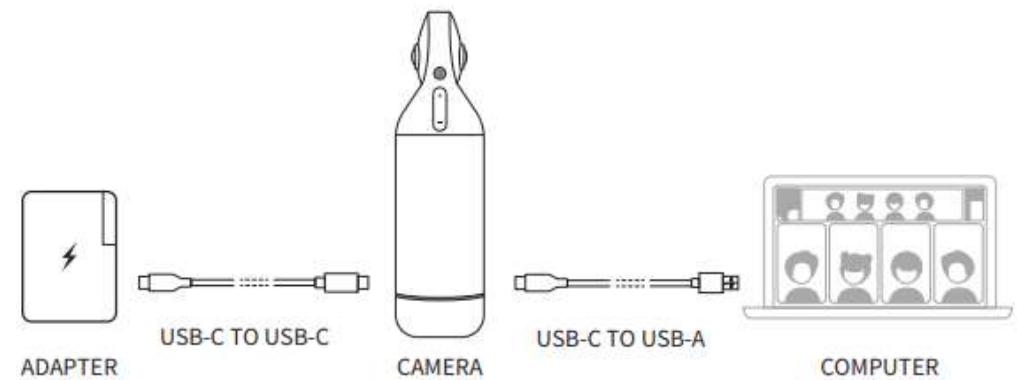

**Vous pouvez annoter des plans en faisant des captures d'écran depuis le Samsung Flip.**

# Utiliser la Caméra Kandao

## Comment connecter la caméra

- 1 Connectez le câble HDMI au PC et à la caméra
- 2 Connectez le câble USB-C au PC et à la caméra
- 3 Connectez le câble USB-C au chargeur puis branchez le à une prise électrique

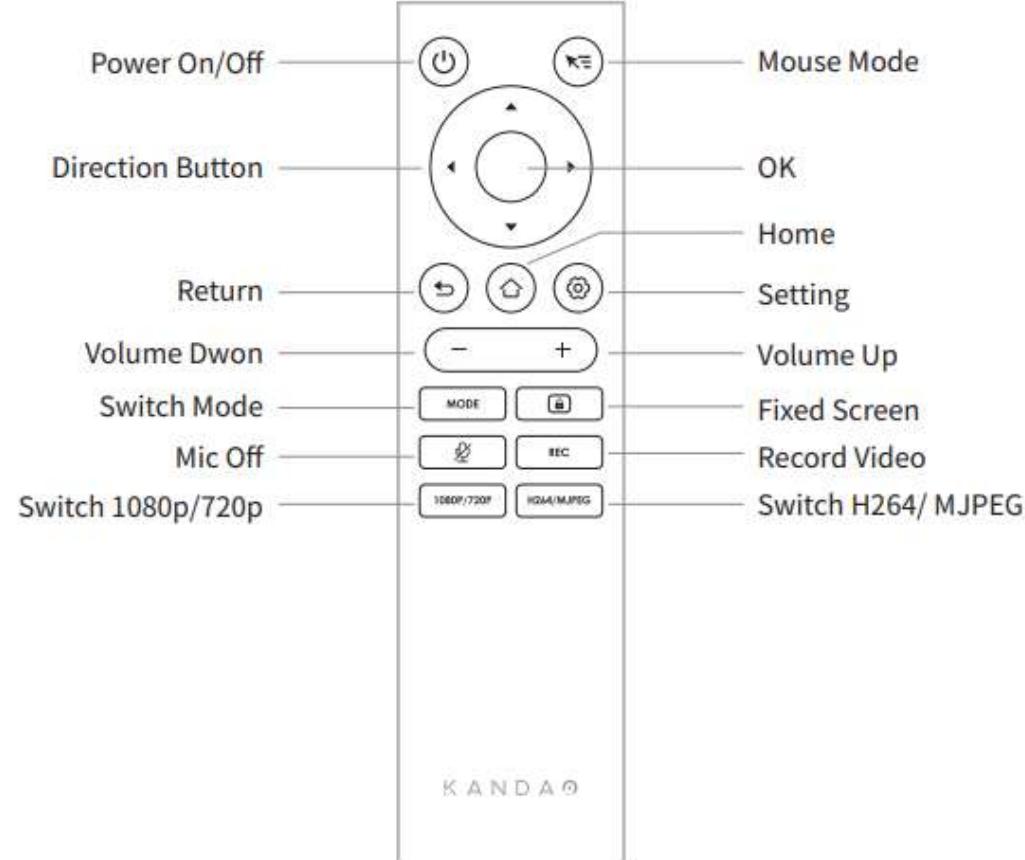

# Comment utiliser la caméra Kandao

## Instructions

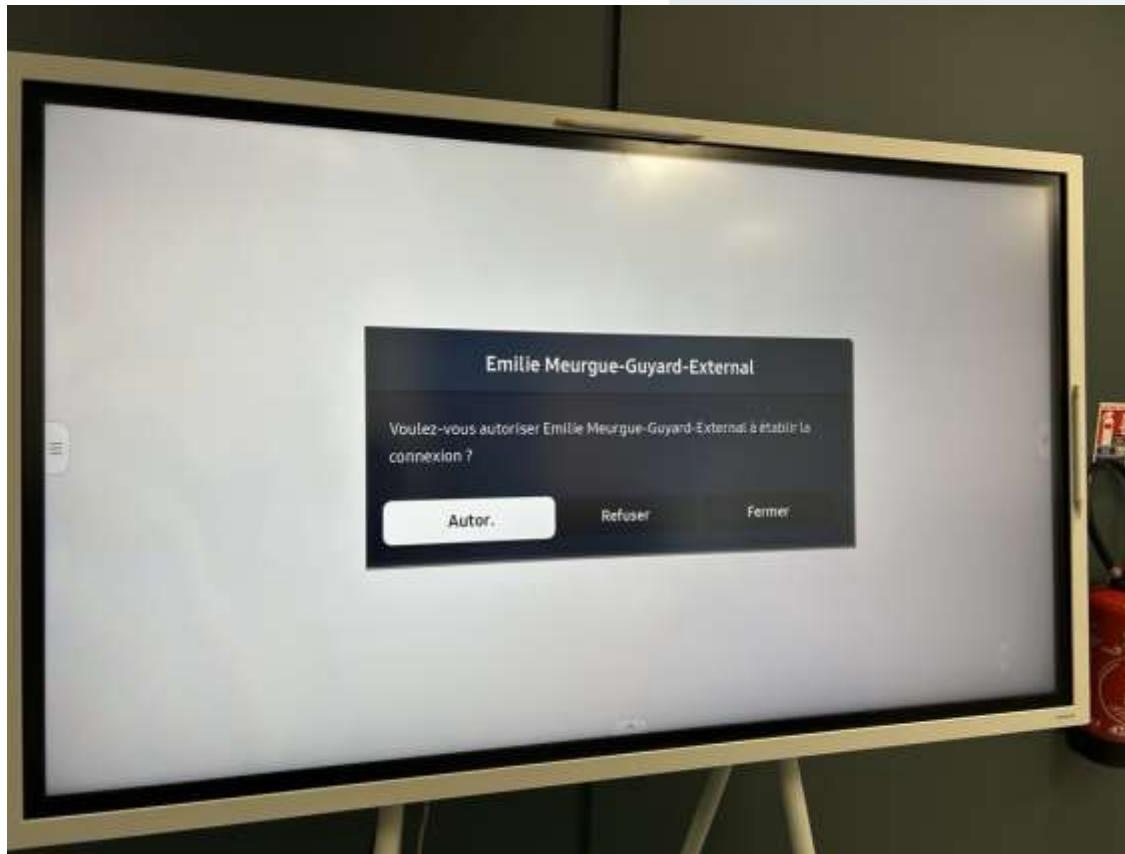

- 1 Appuyez sur le bouton d'alimentation pour démarrer la caméra Kandao
- 2 Appuyez longtemps sur le bouton On/Off pour allumer la caméra et attendre que la lumière soit verte fixe
- 3 Un appui rapide permet de mettre la caméra Kandao dans le mode veille
- 4 Un appui long sur le bouton On/Off permet d'éteindre la caméra Kandao

Le tracking est automatiquement mis en place. La caméra permet de régler le mode de tracking en appuyant sur le bouton "Mode"

# Remote information

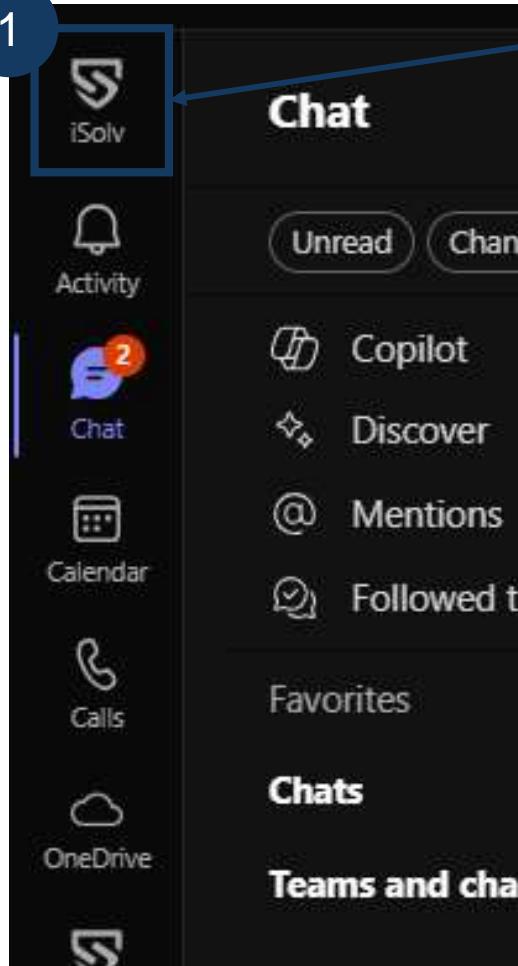

- 3 Confirmez via l'écran l'autorisation de partager son écran    4 Un message de chargement apparaît sur l'écran

# Chatbot – Déclarer un incident dans une salle de réunion

1

Cliquez sur le logo iSolv dans Teams

2

Déclarez votre incident

3

Renseignez le formulaire en suivant les étapes

A screenshot of a Microsoft Teams chat window. The message area contains a welcome message from the iSolv bot: "We're sorry to hear you're facing issues with the meeting room. A dedicated service has been deployed to enhance the Meeting room support. If your country is not yet listed, please type 'Connect with Agent' in the chat conversation area to be directly connected with a live iSolv agent." Below this, there is a section titled "Please raise a ticket to declare an incident in the Meeting Room" with a note: "If your country is not listed, please type 'Connect with Agent' to get connected with a live iSolv agent for assistance". A question "1. Which Country are you in ? \*" is displayed, followed by a dropdown menu placeholder "Select a country". At the bottom right of the message area is a blue "Next" button. The timestamp "Just now" is visible at the bottom of the message area.

En cas de problème, merci de créer ticket via le Chatbot ou bien via ce lien ([ticket](#)), puis de contacter un local DSS avec un numéro de ticket.

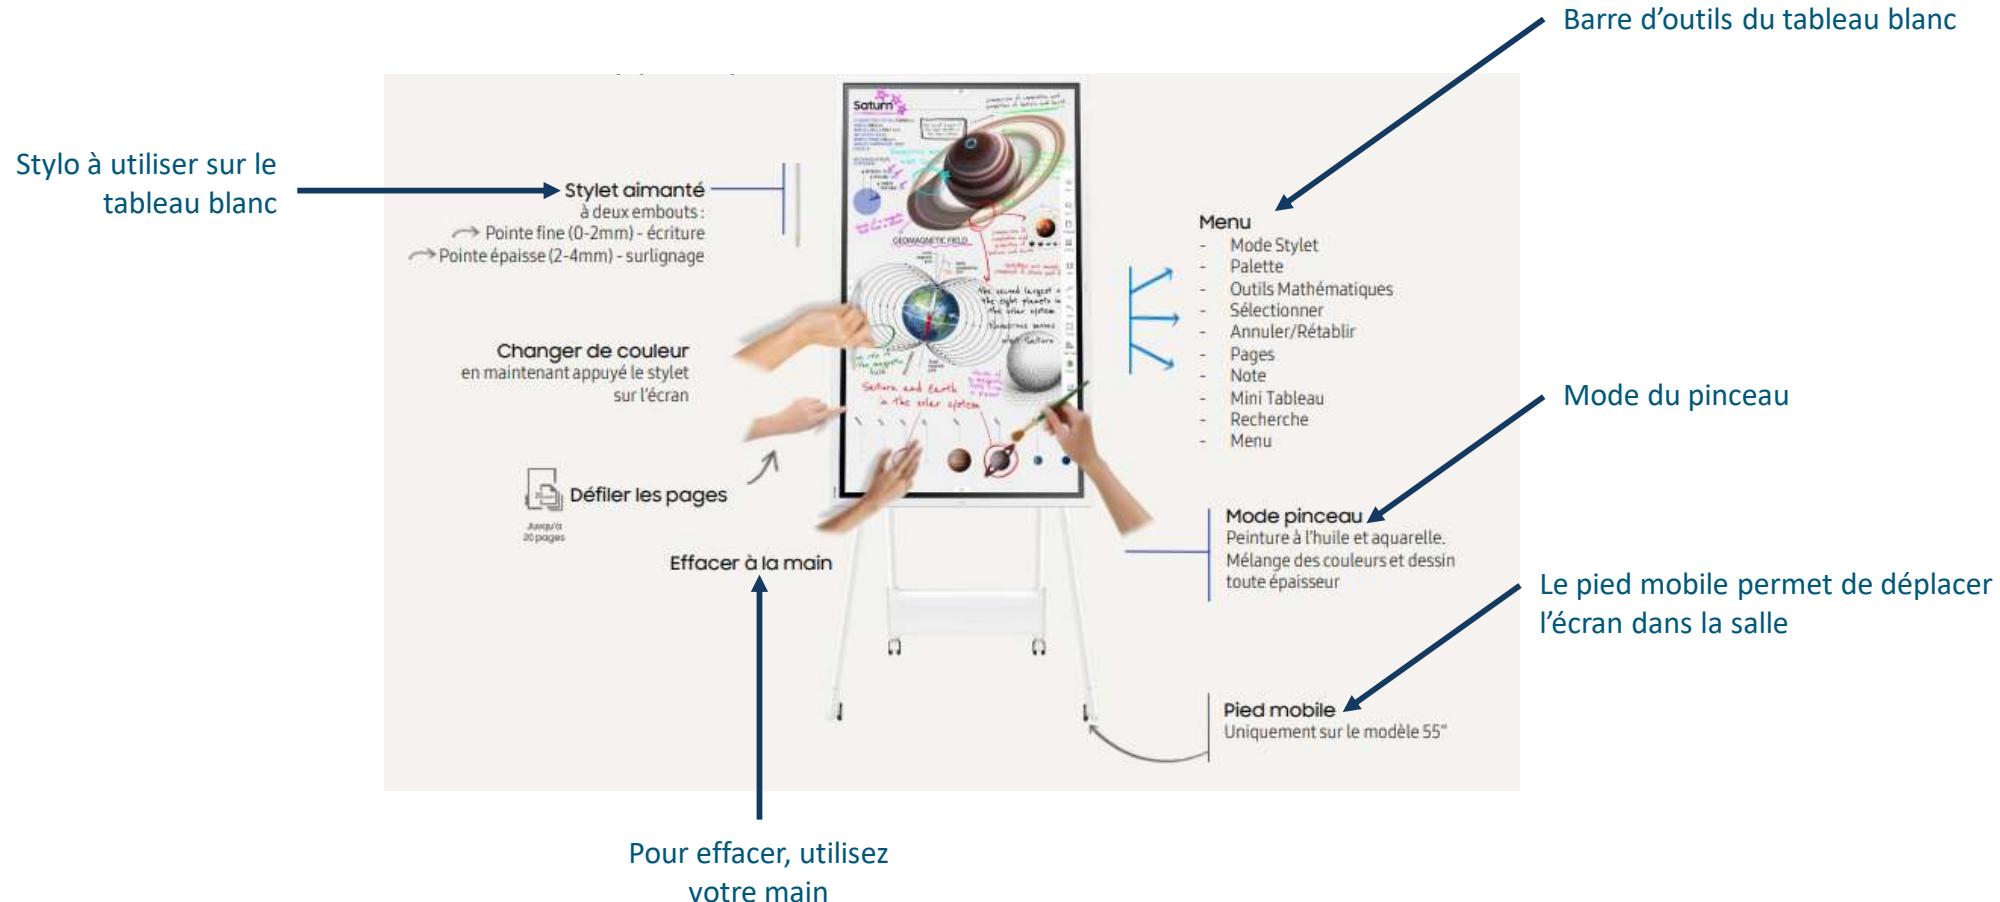

# Equipment in the Meeting Room

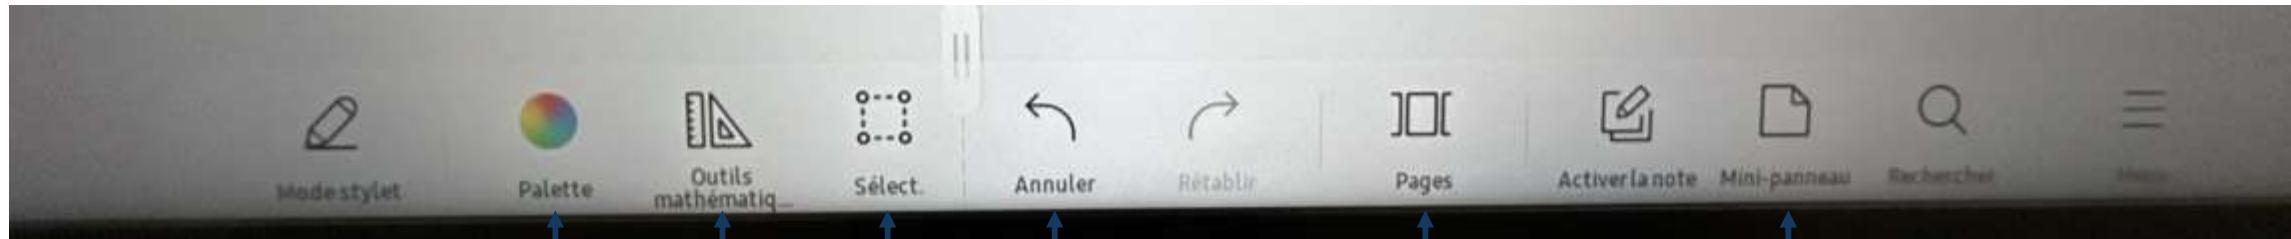

**Samsung Flip – it is a touch screen to share content from your laptop with Miracast or use a digital paper board (whiteboard).**

**Find one Samsung Flip per floor in both buildings.**

# Samsung Flip's Features

# Samsung's Flip Tools's Bar

The palette lets you choose the color of the stylus or highlighter

Line drawing tool

Cancel the action

Navigate in the Whiteboard

Create a note

Select an area to move

Cursor for whiteboard navigation

History of pages to be added or deleted

# Use the Miracast with the Samsung Flip

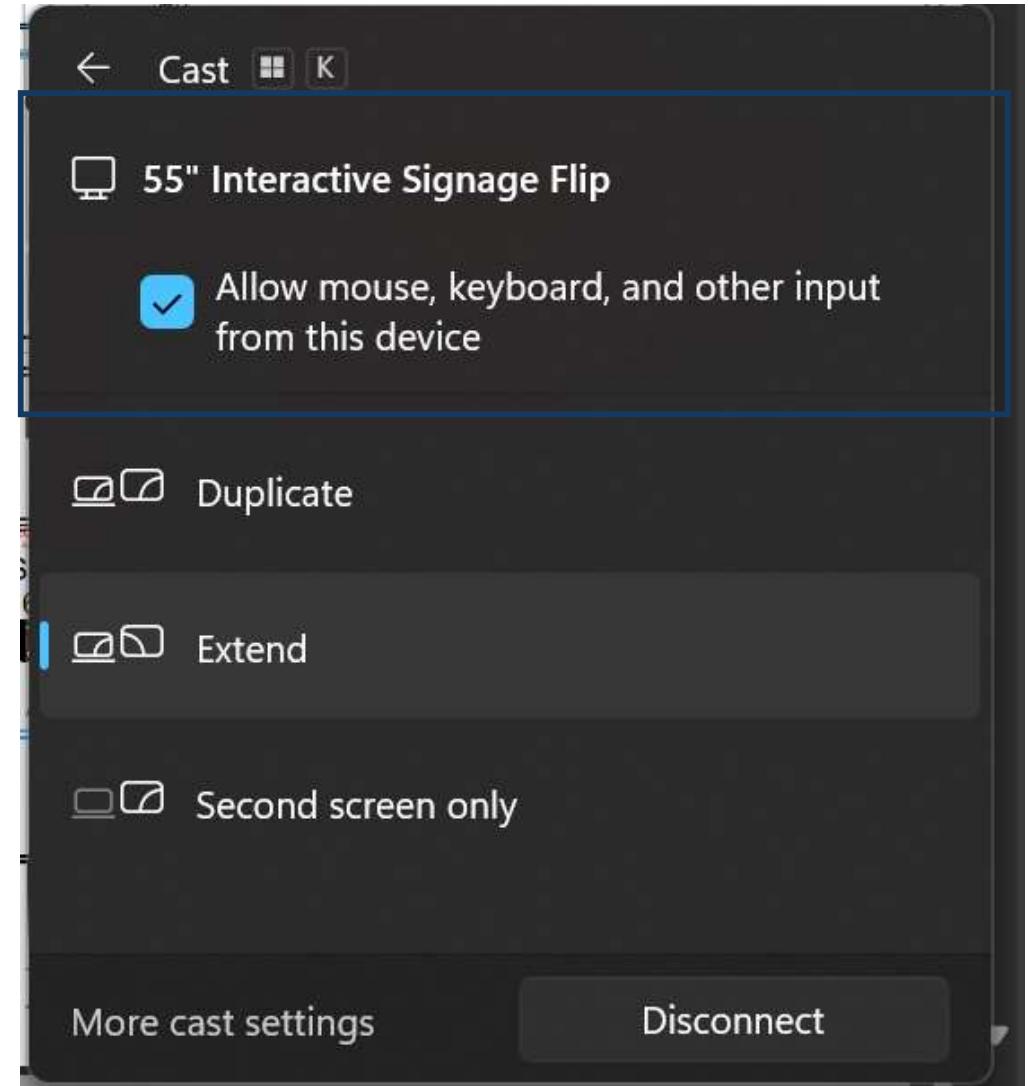

- 1 To connect to the Samsung Flip, use Miracast (wireless sharing)

Simultaneously press both keys on your keyboard

Activate the “Allow input from a keyboard or mouse connected to this display” function to enable touch screen functionality on the Samsung Flip.

- 2 You can enjoy the dual sharing, Samsung Flip and laptop

# Use Cases

You can share your Laptop on the Flip and add notes on the whiteboard or from Laptop App. For example, if you are using Adobe App and share it on the Samsung Flip, you can manage it with Adobe Tool.

You can share your laptop and use the Samsung Flip on the same time

You can navigate between whiteboard pages, with the help of the tool bar from the Samsung Flip.

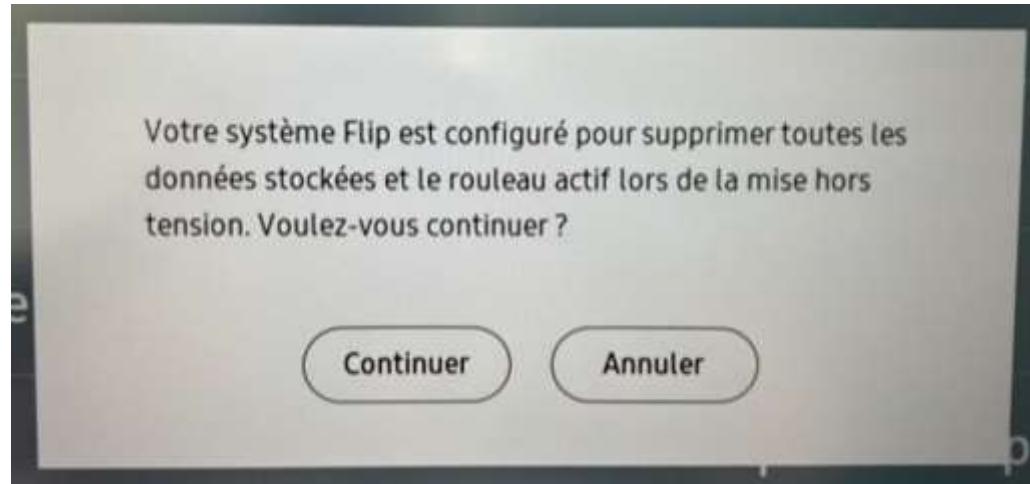

You can annotate architecture plans or something else on the Samsung Flip

# Remember to switch off the Flip at the end of each meeting

To avoid any confidentiality conflicts, when you switch off the screen, all the work you've done is erased. Don't forget to e-mail the work you've done to avoid any significant loss before switching off via the power button below the screen on the right.

A confirmation message will be displayed on power off.

# Send an email from the Samsung Flip

- 1 You can send your work via email by going to the icon on the middle left of the screen

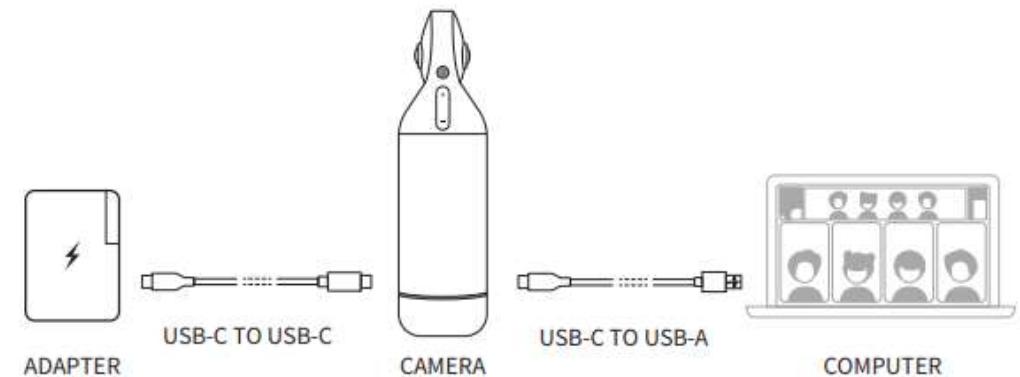

- 2 Click on the “Export” tab illustrated by the icon
- 3 An e-mail page opens
- 4 Manually enter the email address to receive

**Tips**, send to your individual professional e-mail address and forward via Outlook to the other participants in your meeting.

# Cable Management of the Kandao Camera

## How to connect the camera to your laptop

- 1 Connect the HDMI cable to the Kandao and the laptop
- 2 Connect the USB-C cable to the Kandao and the laptop
- 3 Connect the USB-C cable to the battery and plug the battery to an electric socket

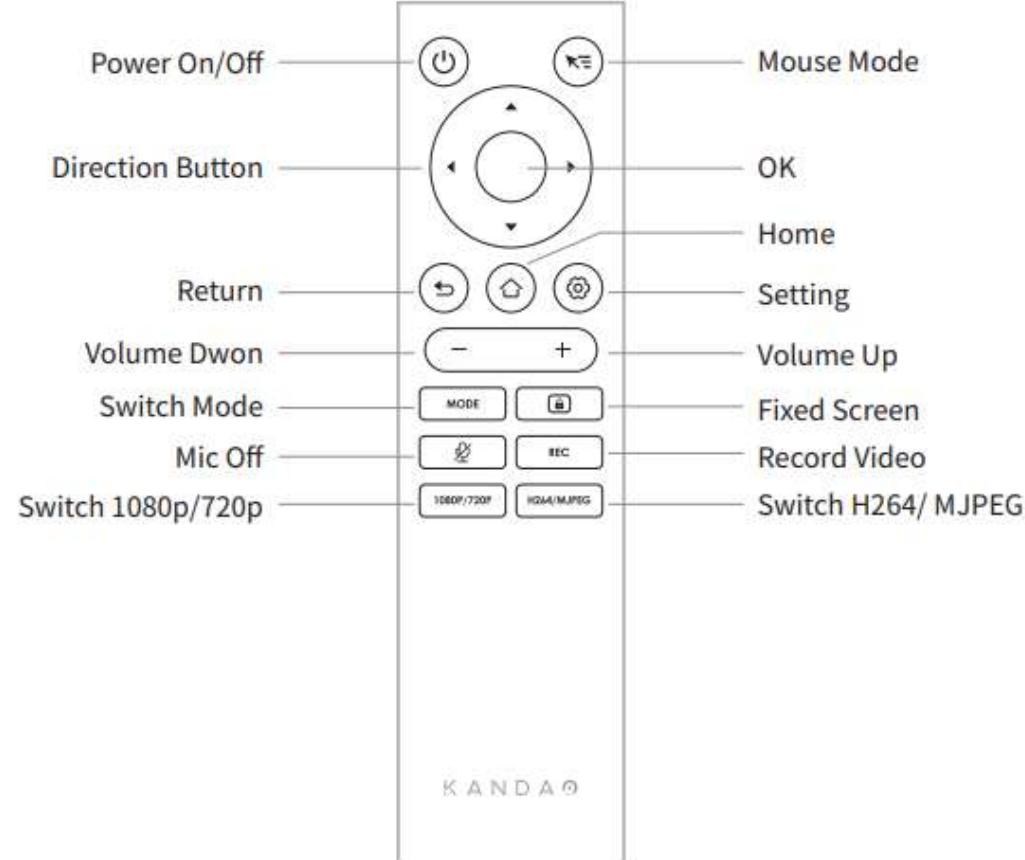

# How to use the Kandao Camera

## Instructions

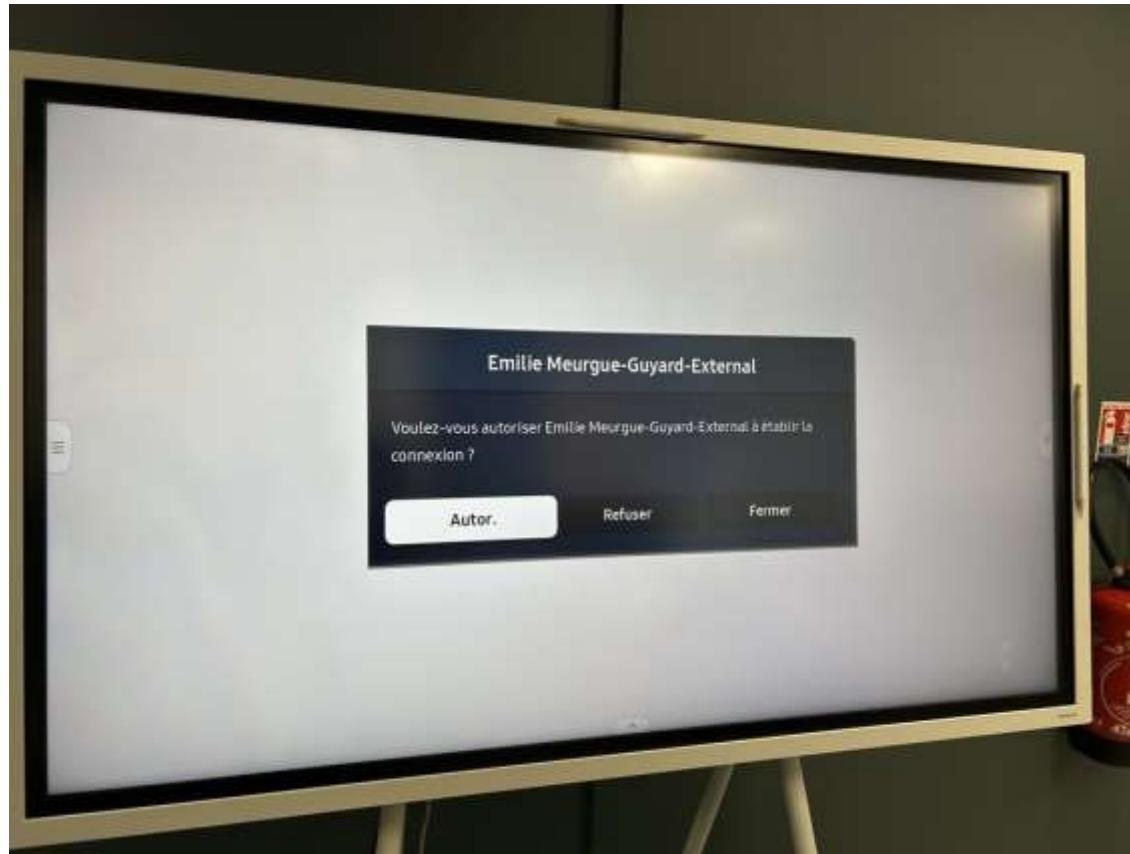

- 1 Press the power button on the camera to start the Kandao
- 2 Long press On/Off button to turn on the Kandao with Green Light On
- 3 Short press On/Off button to enter sleep mode
- 4 Long press On/Off button to turn off the Kandao

Tracking is automatically set up when you connect the camera to the laptop. To modify the tracking mode, you can press the remote button "Mode"

# Remote information

- 3 Use the screen to confirm authorization to share your screen

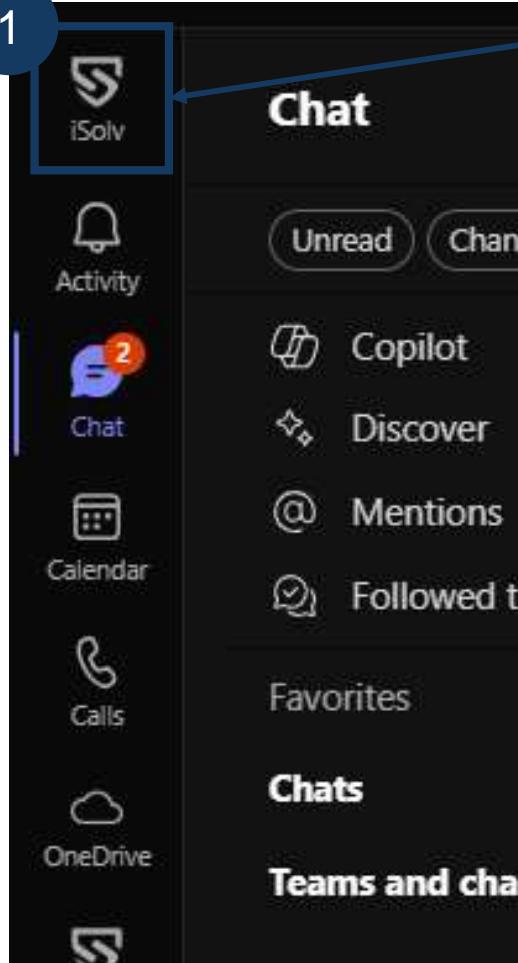

- 4 A loading message appears on the display

# Chatbot – Incident in a Meeting Room

1

Click on the iSolv logo

2

Declare your incident

3

Fill the form and follow the several steps

We're sorry to hear you're facing issues with the meeting room. A dedicated service has been deployed to enhance the Meeting room support. If your country is not yet listed, please type 'Connect with Agent' in the chat conversation area to be directly connected with a live iSolv agent.

Please raise a ticket to declare an incident in the Meeting Room

If your country is not listed, please type 'Connect with Agent' to get connected with a live iSolv agent for assistance

1. Which Country are you in ? \*

Select a country

Next

Just now

A screenshot of a web-based form titled "Please raise a ticket to declare an incident in the Meeting Room". The form includes a message from the bot stating they are sorry to hear about the meeting room issues and that a dedicated service is available. It asks if the user's country is listed and suggests typing "Connect with Agent" in the chat area for assistance. The main part of the form is a step titled "1. Which Country are you in ? \*". It features a dropdown menu labeled "Select a country" and a "Next" button at the bottom right. The timestamp "Just now" is visible at the bottom of the form area.

In case any problem Meeting Room Equipment, please create a ticket from Chatbot or create [ticket](#) via link, and contact local DSS with the ticket number.
